W65 v.17 Gray, Asa, 1810-1888, ed. ... Botany ... 1874. (Card 2)  
The first part, *Cryptogamia*, was printed in or before 1862. Of these parts, *Musci*, by W. S. Sullivan, was published in a separate edition in 1859, with letterpress in folio to match the plates. Extra copies of the other three parts (*Lichenes*, *Algae*, and *Fungi*), and the plates of Torrey's *Phanerogamia* were secured by Asa Gray and distributed among botanists. When the volume was finally published in 1874, he also secured copies of Torrey's *Phanerogamia*, and had the four parts, with the folio plates folded, bound in one volume, with title: U. S. Exploring expedition botany. 1. Lower *Cryptogamia*. 2. *Phanerogamia* of the Pacific coast of North America. It is an imperial 4to of 420 pages and 29 plates. cf. Amer. jour. sci., 3d ser., viii (1874) p. 321-322.  
The contents of this volume (17) are therefore to be found in various forms:
